MUHAMMAD NAEEM

SOFTWARE ENGINEER

ceinfo.pk@gmail.com │ +923006511173 │ linkedin.com/in/im-naeem │ Wahdat Road, Lahore

---

Software Engineer with approximately 3 years of experience building scalable JavaScript applications. Proficient in Agile environments, delivering high-performance solutions on time, and collaborating effectively with teams. Focused on solving technical challenges, driving key projects, and developing leadership skills.

PROFESSIONAL EXPERIENCE

Software Engineer   **Dec 2022 - Present**
DevBrains
- Developed and optimized full-stack applications using Next.js and Nest.js, building dynamic UI for data visualization and operations.
- Enhanced API performance by efficiently using GraphQL, achieving 30% faster response times.
- Implemented RBAC with Auth0, ensuring secure and role-based access to application features.
- Ensured code reliability and functionality through unit and end-to-end testing.
- Worked on a Slack Polling app with a web interface, building interactive modals for Slack and implementing a microservices architecture using Kafka and Amazon SQS for scalable and efficient event processing.
- Integrated CI/CD pipelines to automate builds, testing, and deployments for a seamless development workflow.
- Led a team of three developers, conducted PR reviews, and ensured timely delivery.
- Collaborated in Agile environments using Jira and GitHub for task tracking and team coordination.

Associate Software Engineer   **Aug 2022 - Nov 2022**
Kinectro
- Worked on a MERN stack e-commerce platform with GraphQL, integrated store management for WooCommerce and Shopify platforms.
- Integrated Facebook and Instagram for direct posting and automated content scheduling, streamlining social media management.
- Enabled seamless customer communication via Facebook Messenger, Instagram, and WhatsApp using Facebook APIs.

PROJECTS

GOC Installers   **Sep 2023 - Jan 2024**
- Developed a Home Repair Service system to handle leads data, appointment scheduling, and surveys.
- Designed and implemented a multi-step home assessment survey to streamline structured data collection.
- Implemented an appointment booking system for scheduling customer visits.
- Automated PDF generation, compiling survey data and images into structured reports.

Construction Solutions   **Mar 2022 - Jun 2022**
University Final Year Project
- Developed a full-stack web app connecting individuals with construction companies and professionals.
- Implemented user and company registration, project listings, bidding, and a review system.
- Visit https://conssols.muhammadnaeem.me to explore the project.

TECHNICAL SKILLS

ReactJs, NextJs, VueJs	NodeJs, NestJs	Typescript
Redux, React Query	Apollo GraphQL, Kafka	MongoDB, SQL
Git, Github	Github Actions, CI/CD	AWS Services, Vercel, Docker

EDUCATION

Bachelor of Science in Information Technology   **Oct 2018 - Jul 2022**
- Punjab University College of Information Technology │ PUCIT (CGPA: 3.13/4.0)
